

PA 64 Amplified PA system

Have a van or bus and want to offer the best tours on the planet but your hand mic just doesn't cut it? Or you're looking for a commercial 2 way intercom? The PA 64 can do that and that and a lot more!

The PA 64 offers better sound quality than any other PA system with its 4 x 50 Watt amplifier and variable solid state music muting from 0 – 100%. Now you can introduce music into your tours by day and Karaoke at night? It's also a versatile work horse with 2 mic inputs, allowing interactive tours or configure as a 2 way intercom system for commercial needs.

The PA 64 connects to any stereo, factory, aftermarket or DVD player or it can be a stand-alone PA system, like a Tram, Trolley or any type of specialty vehicle for any purpose. Now you can be even more creative and enhance your tour experience with music or video and a headset, wireless, or two mics. Maybe the PA 64 is that work horse you've been looking for. The PA 64 can do it all.

Please check out all the connection diagrams on your "Tech Info" tab.
