

PHM 6C Hand Mike

This is a tough Condenser Hand Mic with rubber curly cord and 4 pin plug and is is the BEST sounding hand mic you'll ever use! Great for Shuttle, Transit or any time you require a quick announcement. (Sorry... it won't work with Jensen PA systems).

Same as the PSM 4C, but designed specifically for the PA 63, PA 64, JB 6, MB 6 and automatically eliminates the on/off mic pop. It will not function with the PA 5 Series systems.
